Dennis Grewe

University Koblenz-Landau / Robert Bosch GmbH

Research and Coding Interests

- Information-centric networking for networked vehicle environments
- Services/functions for proactive information sharing in vehicle environments (edge computing / unikernels)
- C/C++, Java, JavaScript

Wish List of Hackathon Topics

- … all ICN topics
- ICN/IoT infrastructure deployment, especially ICN for vehicular networks (Car2I, Car2Car)
- 802.11p patch on Jetways
- IDE extensions, tooling, …

Background

- "Truth can only be found in one place: the code." – Robert C. Martin
- ICN-based market place, ICN + MEC for vehicle networks

SCHLOSS DAGSTUHL
Leibniz-Zentrum für Informatik
